GERMANS SHIFT BIG OFFENSIVE

Assault Along British Front May
Mean Big Drive.

IRISH TROOPS WIN HONORS

Make Counter Attack and Retake Positions From Teutons, Inflicting Heavy Losses Upon Latter—Bedfordshire Regiment Makes Successful Raid.

London, April 28.—The Germans may have shifted their offensive from the Verdun region to the British front, starting a new attack which may be the greatest drive they have yet attempted.

Reports told of no appreciable activity on the French front, while the British communication, the longest ever sent out from British headquarters, records unprecedented activity in that region.

The Bedfordshire regiment carried out a successful raid near Carnoy. There has been artillery activity at La Boisselle, Hebuterne, Mouchy-aux-Bois, Neuville-St. Vaast, Armentieres and Frelingheim.

At Frelingheim the Germans entered the British trenches, but were driven out.

Similar attacks on the British trenches on Hill 60 and at St. Eloi were repulsed.

The new German activity has shown itself at more than a score of points, with the principal fighting apparently around Hulluch and Loos.

Special Mention for Irish.

The Irish regiments gave special mention for bravery in a counter attack which drove the Germans out of a section of trench where they had gained a footing with the help of gas and artillery curtain of fire.

The communication closes with an account of the aeroplane activity, including a German "two-seater" and a British "one-seater," resulting in the death of both German aviators and the destruction of the machine, which fell from a height of 14,000 feet.

Of the work of the Irish regiment the communication says:

"The enemy discharged gas from trenches south of Hulluch and at the same time trained artillery on our lines north of Loos.

"Later a second gas cloud was released from about the same place and after a heavy bombardment the enemy gained a footing in our front and support lines east northeast of Loos.

"A counter attack by our Irish troops took place within half an hour and the enemy was driven out, leaving many dead in our trenches.

"The enemy also advanced from trenches just south of Hulluch, but this was repelled by our machine guns, and many corpses were left in front of our trenches.

"A few Germans reached our lines, but were driven out."

SWISS FIRE ON AEROPLANE

Republic Resents Teutonic Violation of Its Neutrality.

Geneva, Switzerland, April 28.—Swiss territory again has been violated by a German aeroplane. The machine flew over the region of Porrentruy and was bombarded by Swiss troops all along the frontier.

The aircraft dropped bombs on the French town of Delle, eleven miles southeast of Belfort, and then crossed the Swiss frontier a second time, finally disappearing in the direction of Alsace.

NEUTRAL TRADE PERILED

Copenhagen Hears England Intends to Extend Commercial Blockade.

London, April 28.—The report that Great Britain intends to tighten the commercial blockade is reiterated in a dispatch from the Copenhagen correspondent of the Exchange Telegraph company. It is stated that Great Britain desires all Danish merchants to pay in advance, through London, for goods purchased in America, with the object of gaining control over the commercial connections of neutrals.

Advance War Insurance.

London, April 28.—War risk insurance has been advanced one-half of 1 per cent on all vessels to and from the west coast of the United Kingdom. The rate between Liverpool and New York is now 3 per cent.

Trolley Mishap Fatal to One.

Cincinnati, April 28.—A double truck Vine-Burnet street car, crowded with men, women and children, became unmanageable as it was approaching McMillan street, ran wild on a down grade for six blocks, jumped the track, crashed into a telephone pole and caused the death of one woman and injury to thirty-eight others.

Uprising in Ireland.

REVOLT IN IRELAND NOW WELL IN HAND

London, April 28.—The government is convinced that with the sending of Major General Sir John Maxwell to Ireland the military forces there will be adequate to cope with the suppression of the rebellion.

John Redmond, leader of the Irish Nationalist party, and Sir Edward Carson, the Unionist leader, strong opponents on the home rule question, expressed their detestation of the uprising and as a consequence, Premier Asquith said he does not think it necessary to hold a session of the house Monday, as had been suggested by one of the members, "to make clear to the world what true amount of support is behind the movement."

At the rising of the house the home secretary, Herbert Samuel, was able to announce the receipt of information that over "considerable districts of Ireland" calm prevails.

THINKS REVOLT WILL FAIL

Sir Roger Casement Says Followers Will Miss Him.

London, April 28.—Sir Roger Casement, confined in the Tower of London under heavy guard, keeps up his spirits.

Although the police have kept from him all news of the rebellion his self importance leads him to believe that any revolt, without his leadership, will fail.

His vanity tells him that but for an unkind stroke of fate he would have freed his country.

There has been no announcement by the government as to when the case against the Irish leader will be pressed.

LACK OF DEFENSE INVITES INVASION

New York, April 28.—Theodore Roosevelt urged the doctrine of preparedness upon a large number of Methodists gathered at the annual banquet of the Methodist Social Union at New York, and referred to the latest phases of the relations with Germany and Mexico as showing that "timidity and weakness invite war instead of averting it."

"I have a right to speak to you for peace," the colonel said in declaring that he abhorred a wanton and unjust war. "I was president seven and a half years. This nation in all that time never for one moment permitted any power to wrong this country or to wrong Americans, either in their person or property or to make us recreant to our duty to others; and yet in those seven and a half years not one shot was fired by any man in American uniform against any foreign foe and not one American man, woman or child was slain by representatives of any foreign nation."

Well Known Painter Dies.

New York, April 28.—Howard Gardner Cushing, well known as a portrait painter, died suddenly of heart disease at his home here. He was forty-seven years old. In 1906 he was elected an associate national academician.

BRITISH BATTLESHIP STRIKES MINE AND SINKS IN MEDITERRANEAN

Eight Hundred and Twenty-four of
Crew are Saved—German Sub-
marine Sunk Near England

Officials Think Kaiser Will Authorize
Friendly Note and Thus Avoid
Breaking Relations

Battle Ship Strikes
A Mine—Sinks

(By United Press)

London, April 28.—It is officially stated that the cause of the sinking of the Battleship Russell in the Mediterranean was a mine. Of the crew 824 were saved, 24 officers and 676 men.

Germans Americans
will Invade Canada

(By United Press)

New York, April 28.—The German-Americans from Maine to Minnesota will invade Canada for a raid, Max Lyman, the convicted bigamist, confessed when beginning sentence this afternoon. He said they will cross the border disguised as picknickers, carrying lunch baskets and beer kegs containing dismantled machine guns and ammunition, then unite into military units.

Berlin Embassy Thinks
Settlement Possible

(By United Press)

The Hague, April 28.—Positive assurances that no diplomatic rupture between the United States and Germany reached the American embassy in Berlin last Saturday. The embassy attaches had quietly begun packing a portion of their effects preparatory to leaving. Wednesday assurances from unrevealed sources caused them to unpack, and prepare to stay until at least May 1st. The authority for that definite date has not been ascertained.

BRITISH BATTLESHIP
SUNK IN MEDITERRANEAN

(By United Press)

London, April 28.—It is officially admitted that the British battleship Russell has been sunk in the Mediterranean.

BRITISH STEAMER
IS SUBMARINED

(By United Press)

London, April 28.—The British steamer industry has been sub-marined and sunk, and the crew left in open boats.

Irish Rebellion
is Gravest Crisis
Since War Began

(By United Press)

London, April 28.—General Sir John Maxwell, the hero of the Egyptian war in 1882, has arrived in Ireland, and assumed immediate command of the troops suppressing the rebellion. Both the press and public admit the Irish rebellion confronts England with the gravest crisis since the war began. The fact that the last statement passed the censor is significant of the seriousness of the situation.

NUMEROUS AIR RAIDS
ON WESTERN FRONT

(By United Press)

Paris, April 28.—It is officially stated that numerous air raids have occurred on the western front, and that several German planes including a Fokker have been brought down. The activity on the whole front except intermittent bombardment at Verdun is unimportant.

MORE RUSSIANS
LAND IN FRANCE

(By United Press)

Marseilles, April 28.—The third convoy of Russians have been landed, and they were received with bands and gay escorts.

Term of Office
Expires in 1917

(By United Press)

St. Paul, April 28.—The supreme court has decided that the act of 1915 legislature extending the term of office of the clerks of the district courts is unconstitutional. The ruling affects fifty-three clerks of court in Minnesota. Their terms expire January 1917 and not 1919 as the law provided.

Mexican Rebels Defeated.

Mexico City, April 28.—In a battle between 8,600 rebels and the Constitutional army just north of the city of Oaxaca the rebels were defeated with a loss of 500 men killed and many wounded or taken prisoners, according to a message received at the war department from Oaxaca.

Mexican Envoys will
Demand Withdrawal

(By United Press)

El Paso, April 28.—General Obregon has issued a statement that his principal demand in his conference with General Scott will be the withdrawal of U. S. troops from Mexico.

Mexican Conference
Will be Held Today

(By United Press)

El Paso, April 28.—Generals Obregon, Treviño, Scott and Funston are due to arrive today for a conference. It is expected that the net result of the conference, probably lasting several days starting tomorrow, will be an agreement that the United States troops will remain where they are pending the Carranzalistas making good on Villa's capture and the pacification of Northern Mexico territory.

Arousing Mexicans
Against Americans

(By United Press)

Pershing's Headquarters, April 28.—Villa sympathizers along the Mexico Northwestern are actively engaged in trying to arouse the natives against the American troops. This, with the Parral incident and Howes's report that citizens of La Joya, Rosario and Santeruse ambushed his columns, showed the necessity of shortening his line of communication before pressing southward.

Few Bandits Bands
Remain Near Border

(By United Press)

Columbus, April 28.—Only a few bands of Mexicans of any size remain. The largest is in the Sierras near the Durango line, another near Minaca flying before Dodd's columns, and small sprinklings through Chihuahua. Villa's presence is not mentioned.

M. & I. Brakeman
Killed at Bemidji

Bemidji, April 28.—Oral Ditty, twenty-nine years of age, of Maple Plain, Minn., a brakeman on a logging train of the Minnesota & International, was killed when he rolled from the car under the train.

One Strike Off
Another Threatened

Pittsburg, April 28.—While twenty thousand coal miners are returning to work, their demands met, the carmen are voting to strike unless their demands are granted. The hope that thirty-one hundred carmen will remain at work has been abandoned.

HENRY VAN DYKE.

Declares Position of
Dutch Is Unchanged.

Henry Van Dyke, the American minister to the Netherlands, is optimistic concerning the situation in Holland. "There is no truth in the rumors," he says, "that Great Britain demanded the passage of troops through Dutch territory."

Lincoln's Birthday
a Legal Holiday

(By United Press)

St. Paul, April 23.—The supreme court has judicially declared that Lincoln's birthday, February 12th, is a legal holiday. Charles Sandberg of Hallock, was served with a summons on Lincoln's birthday and failed to appear. He held the holiday summons illegal, and the supreme court sustained him.

BUILDING PERMITS LARGE

Chicago Operations Total \$36,676,306
in Four Months.

Chicago, April 28.—Permits issued for the first third of the year indicate that building operations in this city during that period greatly surpass all records for previous corresponding periods in the history of Chicago.

The estimated cost of the buildings for which permits have been granted is \$36,676,306, an increase of approximately \$13,500,000 over the same period last year.

SOLDIER OF FORTUNE SLAIN

Hero of Boer War Killed by Bolivian Indians.

New York, April 28.—News of the death of Captain Fritz D. Duquesne of New York arrived in a dispatch to the Times from Buenos Ayres. It was said that Captain Duquesne was killed in a battle with Indians on the Bolivian frontier and that his expedition was looted.

Captain Duquesne was known as a soldier of fortune and daring adventurer. This is the first word regarding him since he left New York in December, 1913, with a motion picture equipment to follow Colonel Theodore Roosevelt in South America. He was born in Pondoland, South Africa, thirty-four years ago. He distinguished himself in the Boer war and rose to the rank of captain in the Boer army.

EMPEROR MAY
REPLY TO NOTE

Kaiser Will Confer With Am-
bassador Gerard.

INDICATIONS MORE HOPEFUL

Washington Official and Diplomatic
Circles Take Optimistic View Over
the Injection of the Emperor's Per-
sonality into the Situation.

Washington, April 28.—The German emperor may supplement the reply to the American note on the subsea issue by a personal communication to President Wilson. This is the opinion freely expressed here.

Secretary Lansing said he has no further advices from Berlin regarding the submarine issues and the situation remains unchanged.

The German embassy also is said to be without information.

Announcement in press dispatches from Berlin that Ambassador Gerard would confer with Emperor William at the army headquarters was regarded by officials as being significant.

Ambassador Gerard, in visiting the emperor, is not acting under instructions received from Washington.

Consequently officials assumed that the emperor invited Mr. Gerard to confer with him.

In both official and diplomatic quarters the injection of the emperor's personality into the situation was regarded as being a hopeful indication.

President Wilson expects to receive the German reply within the next few days, it became known.

WANTS ALL PAPERS SEIZED

German Envoy Makes Demand on
State Department.

Washington, April 28.—The state department and the German embassy apparently are at a deadlock over the disposition of papers seized by agents of the department of justice when they raided the offices in New York of Wolf von Igell, former secretary to Captain von Papen, recalled military attaché of the embassy.

The state department is willing to return the papers, as demanded by the German ambassador, if he or some other responsible official of the embassy will identify them as being official.

Count von Bernstorff insists upon having all the documents removed from the office and refuses to personally identify any of them unless directed to do so by his government. He has asked the Berlin foreign office for instructions.

IRELAND EXEMPT FROM
SERVICE ACT.

London, April 28.—The official report of the secret session of the house of commons shows that Premier Asquith declared the extension of the military service act would not apply to Ireland.

Canadian Journalist Stricken.

Ottawa, Ont., April 28.—Edward Farrer, one of Canada's most distinguished journalists, died here of heart disease. Mr. Farrer was born in England of Irish parentage and came to Canada in 1870, joining the editorial staff of the old Daily Telegraph of Toronto. He was sixty-five years old.

MRS. PEAVEY WINS
SUIT FOR \$700,000

Minneapolis, April 28.—Katherine Jordan Peavey won her suit against P. B. Wells, Frank T. Heffelfinger and C. F. Deaver for the return of 7,000 shares of stock in F. H. Peavy & Co. turned over to Heffelfinger and Wells by her husband, the late George W. Peavey, in 1907. District Judge C. S. Jelley directed the immediate return of the stock to Mrs. Peavey and the cancellation of a note for \$700,000 given in exchange for the stock.

The court declared there was no foundation for the plaintiff's charge that her husband was under the domination of Wells and Heffelfinger at the time of the transfer or her charge that he had made himself mentally or physically incapable of exercising judgment through excessive use of liquor.

The court further declared there was no foundation for Mrs. Peavey's allegations that false representations and inducements held out to her husband by the defendants caused him to make the transfer in 1907.

A Mighty Smoker.

Enile Augier, the dramatist, was inordinately addicted to tobacco. When he was writing "Le Gendre de M. Poirier" he used every morning on sitting down to work to fill twelve pipes, and he always continued smoking until he had smoked them all. At the end of the eighth pipe his mouth was so inflamed that every puff was painful, but it was then his practice to smear his tongue with butter so as to be able to smoke on to the bitter end.

It is not surprising in the circumstances that his doctor warned him that unless he gave up smoking he would die of nicotine poisoning within twelve months. He did give it up, but his life was shortened by his habit.

Ring Finger the Weakest.

The finger on which the wedding ring is worn is anatomically the weakest of the ten. Pianists have to give the third finger twice as much drill as the others. Place both hands together, palms facing, and all but the middle fingers stretched, you will be able to separate all couples easily but the two third fingers. The anatomical explanation of this weakness is that the tendon of the extensor muscle of the third finger is attached by a cross slip to that of the second and sometimes of the fourth. This slip is sometimes cut in violinists, who need all the freedom and power they can get.—Pittsburgh Chronicle Telegraph.

Happiness holds on to what it happens to have; discontent wants all the rest.

CLEAN UP HINTS FOR HOUSEHOLDERS.

Garbage.—This is food waste only. Always keep it in a metal can with a tight cover. Do not let flies get into it.

Rubbish.—This includes ashes, bottles, tin cans, junk and house sweepings. Always keep it in boxes or barrels of average size.

Waste Paper.—This should be kept from rubbish. Always keep it dry. Put it in burlap bags or tie it up in bundles. If kept in the basement it should never be near the furnace nor under the stairs.

Vacant Lots.—The owners of vacant lots are responsible for keeping them clean. Do not throw your rubbish or garbage in these lots. It is not good citizenship and is a menace to your health. Try to get them cleaned up and see if you can put in a garden.

Fire Dangers.—Clear out all waste paper and rubbish of any kind in your attic or basement.

Never blockade fire escapes, halls or stairways.

BECAUSE BUYING A STUDEBAKER SAVES FROM \$250 TO \$400

Our Detroit plants are running about 150 cars a day BEHIND ORDERS!

Of course, what's going on in our Detroit plants—our difficulties in keeping up with orders—our being 150 or so cars a day BEHIND orders even with one of the largest factories in the whole industry—all that makes little difference to you, as we know. But we do know that the REASON we can't keep up with orders DOES make lots of difference to YOU. For that reason is simply this:

The SERIES 17 Studebakers cost from \$250 to \$400 LESS than any other cars that give as much. Sold in another way, YOU SAVE FROM \$250 to \$400 by buying a Studebaker.

Now, we don't expect you to say: "That's so" and rush down to buy a car. We only want you to turn that thought over in your mind a couple of times: "\$250 to \$400 saved by buying a Studebaker"—and then come down and make us PROVE it.

We CAN prove it—either here in our Showrooms or off on the road. We can prove it side by side with any other car you can name—or on the toughest hill in the neighborhood—anywhere and any time you say.

And when you've seen these SERIES 17 Studebakers and know what they offer, THEN go see those other cars and make the salesman tell you WHY they want \$250 to \$400 more? and WHAT you get for the extra price? and whether it's worth paying that much higher price for nothing more.

See a Studebaker—and save yourself \$250 or more.

Coral From Italy.

Much of the costly red, white and pink coral used for ornamental purposes is obtained from the coast of Italy. Men go out in boats and drag the rocky bottom of streams with wooden frames or nets, in which the coral becomes entangled, but the delicate branches are crushed in this way. The finest coral is obtained by diving.

THE LAST CHANCE FOR BABY CONTEST

Mothers are Asked to Enter Babies
Saturday Morning, April 29,
Between 9 and 11

AT THE VISITING NURSE OFFICE

In the City Hall—Babies Eligible
from Three Months to Two
Years of Age

Saturday morning, April 29, is the eleventh hour chance to enter babies for the "Baby Welfare Week" contest. Mothers are asked to register the little ones between the hours of 9 and 11 o'clock tomorrow at the office of the visiting nurse, Miss Rachel Puckering.

To date over 100 babies have been entered in the contest. The babies are divided in five classes: from 3 to 6 months, from 6 to 9 months, from 9 to 12 months, from 12 to 18 months and from 18 to 24 months.

It is really worth \$5 to have a baby examined and passed on by a competent physician. Any throat defects, adenoids, eye, ear, nose, throat or nostril trouble will be reported on the examination card and the results given the mother. In each class first and second prizes will be given.

The "Baby Welfare Week" covers May 4, 5 and 6 and will be given in the Citizens State bank, hall. Already merchants of a dozen or more have signified their intention of exhibiting in appropriate booths which will be built under the direction of John M. Taylor. The merchants include H. F. Michael Co., George Murphy "Store of Quality," O'Brien Mercantile Co., H. P. Dunn, P. J. Oberst, D. E. Whitney, A. M. Opsahl, Koop Mercantile Co., Brockway & Parker, Johnson Pharmacy, B. C. McNamara, C. M. Patek & Son, Grandelmyers, C. L. Burnett, the Electric Shop and others. An invitation is extended every merchant of the city to exhibit. Mrs. C. W. Hoffman is chairman of the exhibits committee and entries should be made not later than Saturday evening.

Mozart Study Club

A great musical treat is in store for the citizens of Brainerd this Friday. The Mozart Study club under the direction of Mrs. W. A. M. Johnstone will present a very elaborate program in the church. All the proceeds to go on the parsonage debt.

The personnel of the club is as follows: The Misses Mildred Skauze, Evelyn Erickson, Ida Peterson, Lilian Nelson and Gladys Nitterauer. The program will include eight hand selections, duets and solos.

It is twelve years since Mrs. Johnstone has presented anything of this kind. A great amount of time and energy has been put into the preparation of this recital and is worthy of your patronage. The tickets have been put low enough to enable all to take in this rare musical treat. Tickets 25c. Recital to commence at 8 o'clock.

Supper and Sale

A sale of fancy articles and a supper will be given by the Presbyterian Ladies Aid society at Trades & Labor hall on Saturday, April 29. The supper will be served from 5 to 8 o'clock. Prompt service will be given business people.

Presbyterian Social Club

The Presbyterian Social club will be entertained this evening by Mr. and Mrs. B. A. Samuelson, 521 South Broadway. A good program will be given and a social time will follow. Refreshments will be served. All are most cordially invited to attend.

On Program Too

Miss Winifred Spencer also takes part in the program of the Junior Musical club at the home of Mrs. W. A. M. Johnstone this evening. She will play the "Soldiers' March," by Tschalkowsky.

SACRED CONCERT GIVEN

Brainerd Choral Club Scores Success
Under Direction of Prof. J. Carl Swanson

The sacred concert, at the Evangelical church of Northeast Brainerd, Wednesday night, given by the Brainerd Choral club under the able directorship of Prof. J. Carl Swanson was a decided success. The house was filled with a very appreciative and attentive audience. Every number was enthusiastically received by those present.

The program was of a high class, consisting of numbers from the works of such masters as Handel, Mendelssohn and others of equal rank.

The presentation is a credit to the club and to the director. Every number of the choruses showed the able training and the thorough preparation on the part of the director and members.

The organization is a credit to Brainerd and deserves the hearty support of every lover of good music. The club affords rare opportunities for a training in the appreciation and rendition of first class music. The club and the vocal as well as instrumental soloists deserve especial commendation.

The program will be repeated at the Bethlehem Lutheran church Sunday evening, where a silver offering will be taken.

Brainerd is promised a strong program this coming August 16-20, so let everybody plan on going. Be a booster for the Chautauqua.

* TO MOVE—OR NOT TO MOVE *

People who live in rented houses are considering the matter of moving—those at any rate, whose leases expire soon. The "For Rent" ads are very interesting literature for these people just now. A good many decisions will be made, either directly or indirectly through the influence of these little ads. Landlords should keep their offerings "in the limelight" these days—for, otherwise, they may be inclined to look up some old and discarded "For Rent" placards later.

Clean Up and Paint Up if You Desire Health

HAVE you joined the "Clean Up and Paint Up" movement? If not, get in line and march to the front ranks and be ready for duty. The royal battle of "Clean Up and Paint Up" will be fought all over the country. This movement has enlisted the aid of every one, young and old, the schools, the clubs, commercial organizations, municipalities and country communities.

One state wide campaign was started by the Oregon Federation of Women's Clubs, which led to the issuing of the proclamation to "clean up and paint up" by Governor Withycombe and was followed by the appointing of a committee from the Portland chamber of commerce.

This committee inaugurated a publicity campaign of stupendous work and met with successful co-operation on the part of ministers and physicians throughout the state. That it has received true co-operation from the physicians is evidenced by the responses.

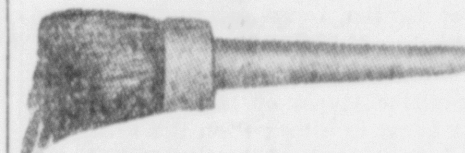

One physician endorsed the movement as follows: "It is much more exhilarating and encouraging to see clean, well kept yards and lawns, clean streets and buildings than to see dirty lawns and neglected buildings. The first example is exhilarating; the second is depressing. In which state of mind do you do your best work?" Another physician said:

"Want to put the doctors out of business? With good water and a salubrious climate and an abundance of fresh food most of the doctors would be idle loafers. But I am with you just the same. I am having my house painted and lawn mowed, and when the painters get their stuff out I will flush out the garage."

Are you going to do the same? Take heed to the advice of the above physicians. It is vital that everything be made spick and span not only for showing off to the visitors that are coming to your town this summer, but for the sake of yourself, your family and surroundings.

"Clean Up and Paint Up!"

LAUGHTER.

Without laughter the human race would have wept itself to death or exterminated itself long ago. Pathos is beautiful; tragedy is absorbing. But both pathos and tragedy are instantly routed by the laugh.

CLEAN COMMUNITIES HEALTHY

How Death Rates and Long Life Come From Such Towns.

Fifth in itself cannot generate disease, but in the long run, barring unusual exceptions, low death rates and long life always come with records of clean communities.

The "Clean Up and Paint Up" campaign is, after all, a housekeeping job, and for that reason every housekeeper should co-operate with the town officials in making the town spotless. Nothing pleases one more than to have a visitor say what a beautiful town you live in. Why not make your town the cleanest in America? It's easily done. Have harmony reign and all work together and you will be surprised at the result. Now, let us all pull together for a spotless town!

CLEAN UP TIME

A JOLLY little clean up fest is coming with the spring. The mop will be our master and the scrubbing brush our king. We'll live and breathe in soapuds and we'll feed on new laid paint. And our overalls and aprons will be singularly quaint.

WE'll see that when the dog comes home he wipes his feet with care. We'll brush away the cobwebs and dust from grandpa's chair. And when we've scrubbed the garbage pail the cat who wanders by will gaze into its shining void with mute, reproachful eye.

WE'll soak in disinfectants from our heads unto our feet. Till our very thoughts are germproof and our souls are pure and sweet. Then when there's nothing else to clean this merry month of May. We'll clean up all the cash in sight and three square meals a day.

ANNUAL PARISH MEETING

Excellent Reports Read at Meeting
of St. Paul's Episcopal Church
Thursday Evening

The annual parish meeting of St. Paul's Episcopal church was held on Thursday evening. Excellent reports were read from the Women's Guild, St. Mary's Guild, Young Peoples' society, the Altar Guild and the Sunday school.

The treasurer's report revealed the splendid financial position of the church. An ambitious budget for the coming year was presented and accepted by the meeting. The rector's report indicated that the spiritual work of the church had not been neglected. It was the unanimous opinion that the past year was one of the best in the church's history. Practically all communicants of the church partook of the Sacrament on Easter Sunday.

The meeting unanimously re-elected the officers of the church. Wardens: W. D. McKay, J. K. Pearce. Vestry: F. A. Farrar, W. H. Gemmell, W. H. Crowell, R. R. Gould, T. C. Blackburn, J. R. Smith, J. Templeton, J. Davidson.

W. H. Gemmell and W. D. McKay were appointed delegates to the Duluth Diocesan convention. George Coutu and J. Howland as alternatives. J. R. Smith was re-elected treasurer. J. Templeton assistant treasurer. Thos. Blackburn recording secretary.

GERMAN SHELLING
 BRIEF, BUT VIOLENT

London, April 28.—Reports from Lowestoft and Yarmouth say the bombardment by a German squadron on Tuesday morning, although brief, was of the most violent character. That the casualties were not larger is regarded as remarkable.
 At Lowestoft, shortly after 4 a. m., the boom of a big gun was heard from seaward. It was followed by a succession of crashes as shells burst in all directions over the town.
 This in turn was followed by a broadside from four guns. One house was split in half and collapsed, causing the death of a man.
 A shell exploded on the roof of a cottage and demolished it, killing a man, his wife and their little child.
 Most of the inhabitants were asleep when the cannonade opened. The bombardment lasted fifteen minutes.
 At Yarmouth the most damage was done in the south end of the place where a large block of fishing buildings was smashed by shells or set on fire and burned out. Various other buildings, including the cooperative electricity stations, were peppered by shell fragments.

Pittsburg Employers Form Association to Fight Union Activities.
 Pittsburg, April 28.—Steps have been taken through the organization of the Employers' Association of Pittsburg to make the district an open labor market and handle all questions affecting labor. More than 100 manufacturing concerns were represented at the organization meeting.
 The organization is a reply to the announcement that organizers of the American Federation of Labor will be ordered here to reinforce the organizers now active in the Turtle Creek valley strike.

SEES PLOT TO
 BRING ON WAR

Wisconsin Senator Scores Attacks on President.

POISON MINDS OF CITIZENS

Mr. Husting Denounces Those Responsible for Sending Form Letters and Telegrams Charging President Wilson With Seeking a Conflict With Germany.

Washington, April 28.—"I believe there is the evidence of a plot which would plunge us into war. I am against those who in the garb of the prince of peace, must by these methods bring us breakneck into the conflict."

This was the sentiment in the senate of Senator Husting of Wisconsin, denouncing those responsible for the sending of form letters and telegrams charging President Wilson with seeking war with Germany.

Senator Husting declared there is a "deep laid plot to poison the minds of citizens all over the country with the thought that the president wants war, when every fact gives the lie to such an assertion."

The senator submitted to the senate a form letter signed by the American Embargo conference, W. R. McDonald, secretary, sent to citizens of Wisconsin, inclosing forms of other letters to be sent to him, urging support of an embargo resolution.

The thousand letters from Wisconsin citizens all were identical, he said, and were supplied by the embargo conference.

Conference Prepared Form.

The letter contained an appeal for recipients to telegraph to Washington without a moment's delay in the form prepared by the conference.

"We will pay for all expense incurred," was the way the letter closed.

"I wish to call attention to the fact that all these letters emanated originally from Chicago and not from Wisconsin," said the senator.

Senator Husting described the telegrams, which, he said, came in eight distinct forms.

An error in one which spoke of the nation being "participated into war" when "precipitated" obviously was meant, the senator declared, appeared in all telegrams.

Senator Husting urged a congressional inquiry to determine exactly who is responsible for the propaganda.

Senator Pomeroy of Ohio also expressed his disapproval of the telegram campaign and Senator Sherman announced he had 1,000 telegrams signed

him to those referred to by Senator Husting.
 "In my judgment, these telegrams are an abuse of the right of the petition—a menace to the liberty of action of this body," said Senator Sherman.

FRANCE IS VERY GREEN.

Every Possible Shade Is Shown In Its Amazing Vegetation.

It might fairly be said that the general impression France as a whole leaves upon the beholder is—green. Perpetually moist of climate—except in the south—endowed with heavy and continuous rainfalls and having a temperature which is astonishingly even year in and year out, the country is like an enormous hothouse.

The result is a study in greens of every conceivable and inconceivable shade. Verdure and foliage range from greens that are gray or black to greens that are hardly more than yellow. From the hardy pastures high upon the sides of the towering Pelvoux range, thousands of feet above the sea, to the cactus and agaves and olives that grow at the water's edge the verdant nuances are a revelation in rural coloring.

But France is not all green either. That is only the background, the filler, as it were, for a warm toned picture full of high lights, touched with the gold of grain, the ruddy tiles of ancient roofs, the fiery spatter of poppies, the tawny flood of a river or the steely thread of a brook, and on the glistening southern shore, with cliffs as red as any soil New Jersey boasts, water like melted sapphires; villages covered with majolica tiles that make the beholder rub his eyes and wonder if he is dreaming the amazing feebilities of style and color that strive to but cannot shatter the harmony of creation.—National Geographic Magazine

 ON T. R. AND BRYAN

These Two Men Will Wield Influence at Conventions.

PARTIES' LEADING FIGURES.

Roosevelt Will Be the Man to Dictate to the Republican Gathering in Chicago, and Nebraskan Will Probably Aid in Shaping the Democratic Platform—What They Can Do.

By ARTHUR W. DUNN.

Washington, April 28.—[Special.]—Beginning in 1900 the political interests in Republican national conventions centered around Theodore Roosevelt. He was the chief figure in that convention and its deliberations. Since that time he has either been the dominating influence or the most interesting personality connected with Republican national conventions.

William J. Bryan started four years earlier than Roosevelt. He was the chief figure in the Democratic convention of 1896 and has been the most prominent figure either as a participant or as a dominating factor in all subsequent conventions.

So far as appearances go Roosevelt will be the man around whom will flow the currents of politics during the convention at Chicago, and if the Democratic convention at St. Louis is more than a ratification meeting Bryan will be the man who will make it so.

What They Can Do.

Mr. Bryan cannot do much in the way of upsetting the plans of Democracy for the nomination of Woodrow Wilson on the platform which the president desires. He will not be as powerful in that convention as he was in the convention that nominated Parker in 1904.

But as regards Roosevelt's relations with the Republicans it is entirely different. If Roosevelt is nominated by the Progressives and is not satisfied with the Republican nomination he can continue as the head of a third ticket and make it almost impossible to elect a Republican nominee. While other men have been going back into the Republican party Roosevelt has stood out as a Progressive, and he can continue to stand out as such unless he is invited back into the Republican party as its nominee. It is evident that Roosevelt is as much of a factor in the Republican situation now as Bryan was in the Democratic situation of 1904.

The Pertinent Question.

Senator Myers of Montana was going along in a talk upon the army bill and said that if we increased the standing army to 150,000 men he thought that congress was doing as much as was necessary.

"Can the senator tell us," asked Senator Hughes of New Jersey, "how we could expect to increase our army to 150,000 when we cannot now increase it up to the authorized strength?"

Those who are thinking that people want to fight would probably find that description would be one of the first things that would follow a declaration of war against either Mexico or Germany. There will be no 1,000,000 men "springing to arms" for a war at the present time.

Three Ways Out.

Senator Martin is chairman of the senate committee on appropriations. His colleague, Senator Swanson, occupies a part of the several rooms which are assigned to that committee. Virginia being right across the Potomac from Washington, it is natural that these senators have more callers than any other members of the body. But they have "three ways out." This was discovered recently by a group of senators who stood in the corridor and saw three doorways opening from the several rooms occupied by the Virginia senators.

How Long Is Five Minutes?

For nearly a whole day the senate was under the five minute rule, and a great many senators found out something that they never knew before, which is the length of five minutes. None of the senators realized that they had consumed five minutes when they were called down by the vice president.

Another thing that was to be observed was the fact that five minutes in the senate is much longer than five minutes in the house. Probably this was due to the leniency of Vice President Marshall, who did not want to hold the senators too close to the time limit.

How Will He Do It?

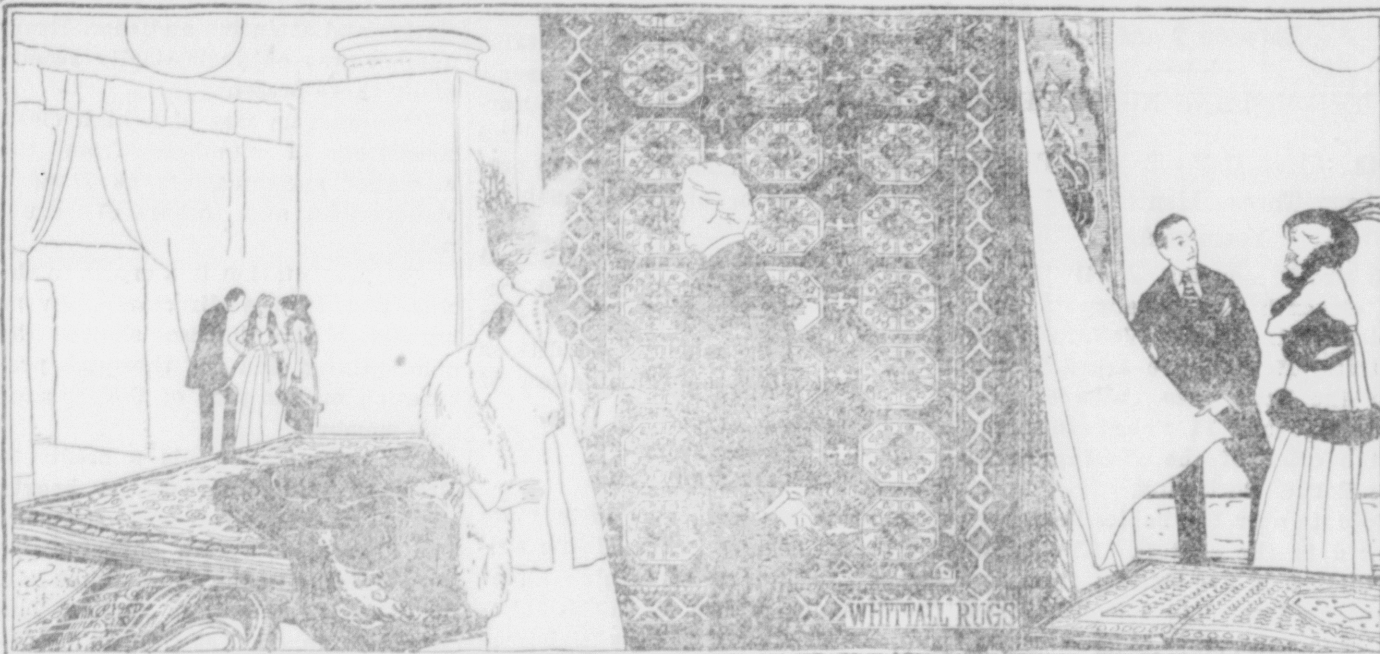

Congressman James of the Twelfth district of Michigan is likely to distinguish himself if he can put over his proposition. He has introduced a bill which, he says, is intended to take the pork out of any future public building bills. If he can make that sort of thing work he ought to become known to fame before the end of his term.

They Never Can Tell.

During a debate in the house Congressman Bennett of New York was asked a question which he could not very well answer, or at least it had him stumped for a moment. "When I first came to congress," said Bennett, by way of explanation, "I remember that I heard the house discuss for two days the question whether a brass field gun was fortifications or not, and I think they finally determined that a brass field gun on wheels was a fort."

MAKE TOUR OF CUYUNA RANGE

President J. M. Hannaford and Party of Northern Pacific Railway Officials on Range

INSPECT SHOPS AT BRAINERD

March Figures for the Railway Indicate Prosperity, General Business Very Good

Touring the Cuyuna iron range in a special train today were J. M. Hannaford, president of the Northern Pacific railway company; George T. Slade, first vice-president; J. M. Rapelje, general manager; C. L. Nichols, general superintendent; A. M. Burt, superintendent of maintenance and J. B. Beard, freight traffic manager.

Conditions on the range were examined into, the special at Cedar Lake proceeding to the Kennedy mine and then visiting other properties.

After the range trip Brainerd was visited and the railway shops inspected. At Duluth President Hannaford gave out an interview on general business conditions and the Duluth News Tribune stated:

"The railroad is the barometer of business, and the March figures for the Northern Pacific indicate a prosperity such as the United States has seldom seen," said President J. M. Hannaford of the Northern Pacific, who arrived at 1 p. m. yesterday, for a day of inspection in Duluth.

"While the shipping of material to the coast for exportation to foreign countries, especially to Russia, has added greatly to the carloading this spring, the war market has not been the chief cause in the increase in transportation business," he said. "Our records show an increase in carloading in every commodity that we handle, and the interstate shipments last year, as the shipments to the coast ports are."

"The report of the Northern Pacific shows an approximate increase over the same month of 1915, of \$1,500,000. The gross income for March, 1916, was about \$6,000,000, as compared with \$4,500,000 last year."

Mr. Hannaford, in speaking of the approaching date for the announcement of the decision of the railroads in regard to the wage battle that employees have been conducting for more than a year, said that matters were

still in "the watchful waiting" state. The trainmen, engineers, conductors, and firemen are asking for an eight-hour basic day, with time and a half for overtime. If these demands were granted, they would add \$100,000,000 to the payroll of all railroads in the country, Mr. Hannaford said. He said he believed that arbitration would be the only method to handle the matter. The railroads will have to give their decision April 29.

FIRST SHOOT ON SATURDAY

Riverside Gun Club Has Twenty New Members, New Trap Has Been Installed on Grounds

TOTAL MEMBERSHIP OF FORTY

President is Art White, Secretary-Treasurer is Ed Anderson, Field Captain J. C. Davis

This Saturday afternoon between 4 and 6 o'clock the Riverside Gun club will have its first shoot of the season. The club is in prosperous shape. Twenty new members have joined, bringing the total membership to forty.

A new trap has been installed and the grounds improved. Its officers are "Art" White president, H. L. Davis vice president, Edw Anderson secretary-treasurer and J. C. Davis field captain.

The state tournament, a shoot for the diamond badge trophy, will be held in Brainerd June 3. This is a registered shoot and Brainerd is fortunate in securing a date which does not conflict with any other club and which will thus bring to Brainerd shooters from St. Paul, Minneapolis, Duluth, Staples, Atkin and other points, making it one of the biggest events in trap shooting in Minnesota.

EVERYBODY HELP

In Clean Up, Paint Up Campaign—Cleanliness Promotes Health

We all want to make business better by bringing new industries here. This is one way to do it! We all want to make our property as valuable as possible. The best way to do it is to keep it in first-class condition. We all want to prevent fires. Keeping your premises cleaned up will help do it. We all want to live in the most healthful place in the world, and to live long and happily. If everyone does his or her part to make this campaign a success, it will help to attain these ends. Your own premises are probably in good condition, but some of the following suggestions may enable you to improve their condition. If not, hand this to one of your neighbors, who may profit by reading it.

Cleanliness promotes health—Cleanliness prevents fires.

Set your neighbors a good example. Remove all rubbish from your attic, cellar, back yard and areaway.

Remove and clean all carpets and hangings for the summer.

Scrub floors, hallways and all unvarnished woodwork thoroughly. Use plenty of soap and hot water.

Clean all windows and keep them open to fresh air and sunlight.

Ventilate damp cellars. Exterminate rats, flies and vermin.

After cleaning up, paint or whitewash your buildings, outhouses, fences, etc., both inside and outside. Paint kills germs.

Put your walks in first-class condition. Plant trees, shrubs, and flowers in suitable places. Keep your lawn in good condition.

If you rent, ask your landlord to repair leaky roofs and plumbing, and to repair dirty, broken walls and ceilings, fences, walks, etc.

If there is a vacant lot in your neighborhood, see that it is thoroughly cleaned up.

Report all dirty or unsanitary places in your neighborhood to the Health Department.

"FIRST NATIONAL" CORN SHOW

Crow Wing County is in District No. 3, Four Prizes to be Awarded in Each District

PRIZES TOTAL VALUE, \$5,000

"Corn and Cattle Contribute Capital for Bigger Bank Balances," is the Slogan

One of the important agricultural events of the northwest for 1916 will be the second annual "First National" Corn Show, which will be held in St. Paul, Minnesota, December 11-16, inclusive. Contests will be open to every farmer and farmer's son in the Northwest.

The Corn Show territory will remain the same as last year, and includes the following states, divided into districts as shown: Minnesota, six districts; Northwestern Wisconsin, two; North Dakota, six; South Dakota, six; Montana, six; Washington, three; Idaho, three; Oregon, two. One hundred and thirty-six silver and "Golden Bronze" loving cups will be awarded as prizes. Competition will be divided into a men's and boys' class, and is confined to districts only, there being no competition between states or between districts.

The geographical divisions for the six districts in Minnesota are as follows:

District No. 1—Counties of Kittson, Roseau, Marshall, Polk, Pennington, Red Lake, Norman, Mahanomen, Clearwater, Beltrami, Hubbard and Cass.

District No. 2—Counties of Koochiching, St. Louis, Lake, Itasca, Aitkin, Carlton, Pine, Kanabec, Mille Lacs and Cook.

District No. 3—Counties of Clay, Becker, Wilkin, Ottertail, Grant, Douglas, Wadena, Todd, Morrison, and Crow Wing.

District No. 4—Counties of Traverse, Big Stone, Swift, Stevens, Chipewa, Lac qui Parle, Yellow Medicine, Renville, Pope, Stearns, Meeker, Kandiyohi, Lincoln, Lyon, Redwood and Brown.

District No. 5—Counties of Benton, Sherburne, Isanti, Chisago, Washington, Anoka, Wright, McLeod, Carver, Hennepin, Ramsey, Dakota, Scott, Sibley, Nicollet, LeSueur, Rice, Goodhue and Wabasha.

District No. 6—Counties of Pipestone, Murray, Rock, Nobles, Jackson, Cottonwood, Watonwan, Martin, Blue Earth, Faribault, Waseca, Steele, Freeborn, Dodge, Mower, Olmsted, Winona, Fillmore and Houston.

Four prizes will be awarded in each district of each state, a first and second prize for men and a first and second prize for boys, trophies for the latter to be of like design and equal in value to those awarded the adult exhibitors.

Each exhibit must consist of ten ears of any variety of Indian Corn raised by contestant in a field of one or more acres, but not less than one acre. No fee will be charged for entry of exhibits.

A judge of recognized standing will make awards at the show and in so doing will judge exhibits by what he considers to be a recognized standard for any variety of corn raised in that particular district. Average size, productiveness, breed type and general appearance will be the governing factors. Exhibits will be returned in every case where contestants request that this be done at the time of making entry.

"Corn and Cattle Contribute Capital for Bigger Bank Balances" is the slogan that has been adopted by the First National Bank and the Northwestern Trust Company of St. Paul and Bankers of the Northwest, in the promotion of their Corn Shows. Increased interest in corn production means the ultimate raising and maintenance of more livestock and diversification in farming methods, to the financial advantage and prosperity of the entire Northwest.

Phamphlets giving full details regarding the second annual "First National" Corn Show and form of entry blank, may be secured on application from bankers in the corn contest territory.

HOUSE IS BURNED

George Blazer, Living in "Nine Row" Saved by Neighbors as the Little Place Burned

Neighbors last night saved George Blazer from burning to death in a house in the "Nine Row." He was carried out as the structure went up in flames.

Taken to the Sisters hospital, he is resting easy today and his burns are not considered serious. The fire department made a fast run to the place and confined the blaze.

BUSH BEATS WASHINGTON

Brainerd's Native Son in Grand Form, Whole Coterie of Washington Harriers in Service

STRIKES OUT SIX BATTERS

Washington Got but Six Lone Hits off Bush, Mackmen Winning Game 3 to 2 at Washington

Leslie Joe Bullet Bush, native son of Brainerd, Jack the New York Giant Killer in the world's series, is himself again, for the weather is getting summery.

Pitching faultless ball and backed by splendid team play of his mates, Bush beat Washington 3 to 2. Washington got but six hits off of Bush. The wizard struck out six.

To stem the tide Washington plunged into line Gallia, Bentley and Boehling, but the staff was useless in the melee. Bush gave five passes. The Mackmen got the upper hand in the eighth when a pass to Witt, Walsh's sacrifice and Oldring's hit to left, which went for a three-bagger when Left Fielder Rondeau, of the Senator's slipped and fell, brought in the winning run. The game was played in a drizzling rain, and every baseball fan knows what it means to pitch in such moisture.

BILICAN'S ORCHESTRA

Scores a Hit, Appeared at Knights of Columbus Hall on Monday Evening in Dance Role

Bilican's orchestra appeared at the K. C. hall Monday evening in a dance role, making their first appearance the talk of the town. "Pep and more pep" is their motto and they live up to it every minute.

In view of the fact that Tom Wood is the "man behind the drums," they claim to be the largest orchestra in the city. Their next dance will be Wednesday evening, May 3, in the K. C. hall. Beginning May 12 they will give a dance every Friday evening.

Each week they will receive six of the latest dance numbers which will be added to the best hits of the preceding week; in this way keeping up with the latest and liveliest music. Novelties which are new to the dancing public of the city will be especially noticed at their coming dances.

A card system is used to acquaint the dancers with the name of each number used. Requests for any particular number always receive courteous attention. Tickets, which are not transferable, will be sold by members of the orchestra. Members of the orchestra are deeply interested in music and devote their whole time to perfecting themselves solely in music.

DOUBLE TRACK THIS YEAR

On N. P. Line From Rices to Little Falls—May Change Line to Staples

There is a report in circulation that the Northern Pacific will this year continue double-tracking in this division, and that this summer will see the extension of the double track from Rices to Little Falls. While no official information has been given out, the report is thought reliable. It is known that the Northern Pacific management is laboring to improve conditions on its lines, reducing grades, travel safer as well as more comfortable for passengers, also making it possible to improve the freight traffic situation. The Northern Pacific has always ranked as the most progressive of the great transcontinental lines, and its double

tracking is particularly in the line of progress.

It is also understood that the new survey for better grades between Little Falls and Staples has been approved. It will not deviate much from the present line, but will be very much easier in grades, although somewhat longer in distance. —Staples World.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

COPPER MINERS GET ADVANCE IN WAGES

Butte, Mont., April 28.—Announcement was made by officials of the Anaconda Copper Mining company and others operating in the Butte district that wages of miners and smelter men at Butte, Anaconda and Great Falls will be raised 25 cents a day, beginning Monday. This makes the minimum wage \$4.50 a day.

The Anaconda company also gave notice that wages of its salaried employees which are \$300 a month or less will be raised at the rate of 10 per cent. This rate is to be effective so long as copper is quoted at more than 25 cents a pound.

About 25,000 men are affected by the increased wages. The advance amounts to about \$6,000 a day for the miners and smelter men in the three cities.

Secretary of War Baker Urges Need of Preparedness.

New York, April 28.—Mobilization of American industries and commerce as a prime factor of preparedness for national defense was urged here by Secretary of War Baker in an address at the annual banquet of the American Newspaper Publishers' association. He declared the necessity of such a mobilization is one of the greatest lessons learned from the European war.

The Strange Case of Mary Page

The Great McClure Mystery Story, Written by FREDERICK LEWIS, in Collaboration With JOHN T. M'INTYRE, Author of the Ashton Kirk Detective Stories

Read the Story and See the Essanay Moving Pictures

Copyright, 1915, by McClure Publications

"Well, it just happened that the day Mary hit the big town I had a date with Webster, the real boss of the musical comedies. Of course he isn't the sort that you'd want to send your little sister from the country to see, but too much hedging don't go in the show business worth a whoop. You've got to trust to a sharp tongue and a bat-pin till you show them where they get off, and once they're wise, they treat you all right. Webster was like that, but if he promises you a part he plays fair, so I never was afraid to buck his office-boy even on a busy day. So off we went.

"I had an appointment with the old man, but he was scrapping with one of his 'romantic leads'—you could hear them clear out to the front hall—and it was a long time before I could persuade his little cerberus to go in and tell him I was waiting. At any rate, he came out at last blowing blasts of red fire after the actor—and then he saw Mary. Talk about lions and lambs! Why, he purred when he saw her, and he was so sweet to me I almost got a leading lady's contract out of him before he woke up, and began to ask me questions about Mary. Then he tried to kiss her and I put an inch or so of my bat pin in his arm just above the elbow. Mary and I beat it while the going was good, and Mary was so upset we decided to go right home instead of calling on any of the other managers. That was how we happened to run into Jim Pollock."

"Where did you meet Mr. Pollock?" "Oh, he was on the job at the apartment when we got home. Playing the humble but persistent swain—wanted to lay his fortune at her feet and give her a life of glided ease. He pleaded all that sort of soft-music stuff, and told her she didn't realize how cruel the world was to a girl (men always say that) and how she would suffer to see her mother growing old and lacking the comforts she could not earn for her. Then he pulls out his wallet and taps it, saying, 'All that I have is yours, Mary, even if you don't marry me.' Business of soft music!"

"Were you in the room while this was going on?"

"No," she answered, winning a gale of laughter from the court-room, "but you can't brush your teeth in a New York apartment without the people in the next door flat hearing you, and everything that Mary said or Jim Pollock said, might as well have been shouted through a megaphone."

"Did Miss Page seem touched by Mr. Pollock's offer?" said Langdon, repressing a smile with difficulty.

"No," she stood up to him spunkily and told him flat where he got off. "I'm going to get work," she said, "but even if I didn't my mother and I would never accept any help from you. I have only one thing to ask, and that is that you leave her at once and do not come again." He came out in the hall where I had the door all nicely opened for him. I told him sweetly that I'd opened it for him to get out, but I'd be shot before it ever opened to let him in again. I ran back to the sitting-room, to find Mary in a dead faint. It was such a long time before she came round, and then she was so dazed and terrified that we were all scared to death, and I swore a solemn vow then and there that I'd be the busiest little stage mother and chaperon and advice giver to Mary that any girl ever had."

Her voice suddenly trembled, and the quick tears filled her eyes as, turning to Mary, she cried eagerly:

"And, Mary, I've kept my word, haven't I? Haven't I?"

Mary nodded, smiling through her own tears, and the spectators who throughout the breezy testimony of the young actress had been in gales of laughter, suddenly sobered. They saw the brave heart under the butterfly exterior, and realized the wisdom and the goodness behind the vulgar words.

LORD WIMBOURNE.

Subject of Fierce Attack by the London Newspapers.

The London newspapers have launched a fierce attack upon Chief Secretary for Ireland Birrell and Lord Wimbourne, demanding their immediate resignations. The Express, Daily Telegraph and Post joined with the Northcliffe papers in declaring that Birrell's weakness and irresolution were responsible for the Sinn Fein uprising. The Express demands that Lord Kitchener be sent to Ireland as lord lieutenant.

NEW REVOLT UNDER WAY IN MEXICO

San Francisco, April 28.—General Juan Carrasco, heretofore a Carranza follower, has started a revolution in Southern Chinaloa, according to an unconfirmed report received from the west coast by officials at the Mare Island navy yard.

The report is borne out by advices from Guaymas that the Mexican armed transport Korrigan III, has sailed from Guaymas, presumably for Mazatlan, carrying troops and fifteen field guns.

"Villa-Carrasco" is the inscription on the Mexican flags hitherto carried as standards by Carrasco's large peon following. Carrasco is said to be in Southern Sinaloa.

Anti-American feeling is intense in Sinaloa, according to the reports received at the navy yard. General Flores, Carranza commander, says he will protect foreigners.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a full, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.
